PRESIDENT DECLARES THE BILL IS OFFENSIVE

California Legislature Passes Bill Shutting School Doors to Japs--Law Will Be Tested.

SACRAMENTO, Cal., Feb. 5.—With the defeat in the lower House yesterday of two of the anti-Japanese measures, followed by the unexpected passage of a third bill segregating Japanese school children in separate schools along with Chinese, Koreans and other Asiatics, President Roosevelt again has taken a hand in the anti-Japanese legislation that for the last week has drawn international interest to California.

Hardly had the bill been passed by the assembly before Gov. Gillett received the following telegram from the President:

Will Have to Test Bill.

"WASHINGTON, D. C., Feb. 4.—J. M. Gillett, Governor of California: Your kind letter just received. What is the rumor that the California Legislature has passed a bill excluding the Japanese children from the public schools? This is the most offensive bill of all, and in my judgment is clearly unconstitutional, and we should at once have to test it in the courts. Can it be stopped in the Legislature or by veto?

(Signed) "Theodore Roosevelt."

The Governor immediately sent a reply, the nature of which he declines at this time to make public, and he requests from the President an immediate answer.

"Japanese" Mentioned.

The bill passed places the Japanese in the same classification with other Asiatics and inserts the word "Japanese" in the present statute providing for the segregation in separate schools of "mongolian" children.

By this action the lower house of the California Legislature has taken the step which the Board of Education of San Francisco intended to take two years ago and which was abandoned after the board and former Mayor Eugene E. Schmitz were called to Washington and had several conferences with President Roosevelt.

Two Bills Were Defeated.

Grove L. Johnson's bill compelling Japanese to attend separate public schools passed by a vote of 48 to 26.

Mr. Johnson's other bills preventing aliens from being members of board of directors and restricting them in residence districts at the option of boards of supervisors, were defeated, the former by a vote of 54 to 15. The latter measure failed of passage because of a tie vote, the friends of the bill being unable to muster the required forty-one vote. Roll call finally stood 37 to 37, after a call of the House and several changes from aye to no and vice versa. The principal debate was upon the residential segregation bill. Many who voted against the land and corporation measures announced that they favored segregation of undesirable aliens, because that was effective anti-Japanese legislation.

Drew Wanted Another Vote.

Shortly after the disposal of the Johnson bills, Mr. Drew moved that the vote by which his land bill was defeated Wednesday be reconsidered. He offered to amend the measure by striking out a section which it had been declared violated the treaty right of several nations. He declared that as the school bill had just been passed and that was the one against which the President objected most strenuously two years ago, the assembly should go a step further and pass land bills also.

The motion was lost, the vote being 36 ayes and 38 noes. This showed a gain of ten votes for the proponents of the bill.

Haskell Charged With Conspiracy to Defraud

MUSKOGEE, Okla., Feb. 4.—Eight indictments were returned by the Federal grand jury here last night in the town lot alleged fraud investigation, the charge being conspiracy to defraud the Government. The names of those indicted are:

Governor Charles N. Haskell, F. B. Severs, A. Z. English, C. W. Turner, W. T. Hutchings, James W. Hill and Walter R. Eaton.

Attorney Thomas H. Owen of Muskogee, representing Governor Haskell, made arrangements for the Governor to enter his appearance on Friday and give bond in the sum of $5,000 for appearance for trial. The writs issued are returnable forthwith.

Governor Haskell is at Guthrie. There is but one indictment against him. It charges conspiring with Walter R. Eaton and Clarence W. Turner to defraud the Government. There are two indictments against Turner and one each against the others indicted.

Turner was first to give bond in the sum of $10,000. Hutchings and Eaton called and gave bond of $5,000 each. All will probably be arraigned before Judge Campbell on Friday.

Walter R. Eaton, one of the men indicted, is the secretary of the Indianola Contracting Company of which Gov. Haskell is president, and which it is alleged scheduled the names of many "dummies" to secure town lots. Fifteen of the wealthiest men in Muskogee called at the office of the United States marshal here last night and signed Gov. Haskell's bond for $5,000. Many more asked to be allowed to sign it.

Haskell Issues Statement.

GUTHRIE, Okla., Feb. 4.—Governor Haskell, when informed that he was indicted last night, issued the following statement to the Associated Press:

"I have just heard of the indictment for conspiracy, coupled with seven or eight of the oldest and highest characterized citizens in Muskogee, who developed and built up that country by their unselfish effort. From now on the proceedings will be open to both sides.

"Hearst's crooked manipulations will be at a discount.

"I am satisfied that the interior department has been misled by false statements. I am confident there has not been a dishonest act done by any of the indicted parties, and that good citizens in general, regardless of politics, feel the same way.

(Signed.) "C. N. HASKELL."

Must Return Licenses.

County Judge Mason yesterday informed us that there were still twelve marriage licenses issued during the month of December that had not been returned for recording, and that he especially desired to impress on the parties that have them that they must be forwarded to his office at once.

WEEKLY NEWS LETTER FROM WASHINGTON

CONGRESS WASTING TIME DAWDLING OVER SMALL MATTER.

No Appropriation Likely for Conservation of Our National Resources. The Wireless Attachment.

WASHINGTON, D. C., Feb. 6.—Congress, which has now but little over three weeks for the passage of many important measures before inauguration, continues to dawdle and waste its time. This week it has spent many hours arguing over a twelve thousand dollar appropriation for automobiles for the White House. Representative Sims of Tennessee and twenty-seven of his friends are sternly opposed to the introduction of automobiles for the President, and he, with a number of his colleagues, have made speeches against this, their pet aversion. Their arguments have been futile in the lower House, though, and all of their gory pictures of the dead and wounded who are left in the trail of the gasoline machines succeeded in securing only twenty-seven votes against the appropriation, to 185 in its favor. Mr. Taft will have a chauffeur and a footman, and if the ordinary man is a judge of such things he will get all of the punishment that Mr. Sims and his friends wish him. The horse is a known and tried luxury, but the automobile is a fitful, unreliable thing as yet, and no man can be the possessor of one, much less two or three, without having as much trouble as his envious friends and enemies can wish him. And if the automobile is a care, there are no mild terms for the description of the load of trouble he has undertaken in a chauffeur. If the automobile is still far from perfection the average chauffeur has just emerged from the nether regions. Probably Mr. Taft will not be so unhappy in his automobile as the average man. His chauffeur will be responsible to someone besides the President, who will not have to find out that his car is left to stand in oil to weaken the tires; that tacks are recklessly sprinkled in his garage for the same purpose and that gasoline is soaked into the inner tubes with the object of having them blow up. The chauffeur has a rake-off on all supplies and repairs for his machine, and it is up to him to see that the car which would ordinarily behave like an angel on wings does not pursue its peaceful career. Presumably there will be someone to see that when the cars are turned in at night the chauffuer does not take his family and friends out for moonlight drives, and it is to be hoped that there will be some adequate inspection of the car before it starts out on a long trip, so that Mr. Taft may not find himself stranded miles from a car line on a lonely road. Still, if all of these safeguards are provided there will doubtless be many times when the President-elect and his family will wish for horses, when Mr. Sims and his twenty-seven friends may indulge in "I told you so."

It is probable that the friends of the movement for the conservation of our national resources will see Congress adjourning without having made provision for that purpose. So far that body has appeared content to let the movement drift, and it is not likely the enemies of the movement will allow an appropriation to be made for it in the last hurried month that remains. The President has done his best, and there may be other messages dispatched to Congress with the object of prodding it on to its duty in the matter. The enemies of conservation, led by the Speaker of the House, are so numerous and powerful, though, that it is not likely anything will be accomplished, and the fifty thousand dollars that the President has asked for the beginning of the work will probably not be forthcoming. Mr. Pinchot, the national forester, has returned from his trip to Canada and Mexico for the purpose of interesting those countries in the movement and reports informally that these governments are in full sympathy with the proposed work and that they are eager to join the international conservation commission that will meet in Washington by invitation of the President on February 18. At this conference many important questions will be discussed, among them the border forest fires, which may originate in one country and carry devastation into the next, and also the question of the tariff on lumber and how its removal would affect the matter of the conservation of forests.

The thrilling incident of the rescue of more than one thousand persons from the steamer "Republic" through the agency of wireless telegraphy has inspired Congress to take some action with regard to the equipping of all passenger-carrying steamers with the apparatus. Had the "Florida" been so equipped the accident by which the "Republic" was sent to the bottom would not have occurred, for the two vessels would have been able to exchange signals in the fog. It appears that the French Assembly has already taken up the subject and it is probable that England will follow with laws requiring vessels to carry the wireless equipment. Its cost is slight, ranging from three hundred to one thousand dollars, and its maintenance is not exorbitant, and it is proposed by the Committee on Merchant Marine to urge that all ocean steamers carrying more than fifty passengers shall carry the apparatus.

FAILURE TO STOP NEGROES' ATTACKS

May Bring Racial Clash in Smoky City---Women and Girls Are Victims.

PITTSBURG, Feb. 6.—To bring justice to the perpetrators of the many recent attacks on white women and gilrs in the Herron Hill, Lawrenceville and Southside districts of this city and to take steps to prevent a recurrence of the crimes, the better element of the negroes have issued a call for a general mass meeting to be held next Tuesday night.

The feeling between the white people and the negroes is becoming more acute as each day brings its quota of attacks and reported attacks on white girls by negroes. The populace of the affected districts is highly wrought up over the existing situation and only the most careful vigilance on the part of a double force of policemen prevented a serious clash between the races.

Two Girls Are Attacked.

Blanche Smith and Rose Sesock, residing in a suburb, were attacked by negroes yesterday, but their screams frightened the assailants, who escaped. Two negroes, accused of being those who attacked the girls, were later arrested and sent to the workhouse for three months.

John Stokes, a negro, aged 32, was arrested on a charge preferred by Mrs. Jane Thampson of the Southside, who alleges he entered her home and the room of her daughter, but was frightened away by the screams of the girl. The man will be given a hearing today.

Aged Woman a Victim.

JOHNSTOWN, Pa., Feb. 6.—Mrs. Mary Kruise, aged 80 years, was attacked at her home near here yesterday by a negro. The aged woman's screams frightened her assailant, who escaped, leaving his victim in a critical condition.

Shortly after the assault a negro giving the name of Arthur Cochran and said to be the one who committed the crime, was arrested and is being closely guarded, as the neighbors of Mrs. Kruise threaten to do the prisoner bodily harm.

Bullet Stops a Marauder.

UNIONTOWN, Pa., Feb. 6.—Mrs. Anna Davis of Lynn's Station, near here, shot and fatally wounded James Donahue yesterday when he and another white man and three negroes attempted to force an entrance into her home. The men laughed at the woman when she warned them to leave. Seizing her husband's revolver she fired through the door.

Friday Night's Fire.

The building destroyed by fire and owned by J. R. Montgomery on Friday night was a large two-story frame structure and valued at about $1,000, which was almost a total loss, as the insurance carried was only a small amount. Most of his household effects were saved by the large number of people assembled there to attend a fish fry.

Dance at Archer.

The young people of Archer gave a delightful dance on Friday night, which was largely attended by the young folks there and adjoining town. Part of the Gainesville Orchestra was engaged and furnished music for the occasion.

Savannah Market Firm High Grade of Sea Island

SAVANNAH, Ga., Feb. 6.—The Sea Island cotton market for the high grades of the staple was firm during the past week, but dull and easy for the lower grades, which were not in demand. Fair sales were made, considering the recent depletion of the offering stock. The quality of the cotton coming in, except in the case of holding lots, is inferior, which in connection with the poor demand for lower grades, explains the weaker feeling in the inferior qualities.

Sales for the week were 637 bales.

The following prices were based on factors' quotations and are revised weekly on Fridays:

Fancy Floridas	19	@20½
Fancy Georgias	19	@20
Ex. choice Fla's	17	@18
Ex. choice Ga's	17	@18

CHARLESTON, S. C., Feb. 6.—Sea Island market steady; fine, 20c; fully fine, 22c; extra fine, 23c. Receipts, 109; exports, 703; sales, 450; stocks, 2,290.

WAS GETTING BOOZE BY FORGERY ROUTE

W. D. DEBOSE CAUGHT AT GAME BY DEPUTY DOUGLASS.

Called for Second Shipment, When He Was Placed Under Arrest at Express Office.

From Saturday's Daily Sun:

W. D. DeBose, a young negro of this city, was arrested Friday morning by Deputy Sheriff J. B. Douglass on the charge of forgery as he applied for a box of "booze" shipped from J. J. Williams of Jacksonville to the name of Harry W. Smith.

There has been in a small way a system of forgery going on here for some time, which the officers have been quietly at work upon, and it is thought that the arrest of DeBose will put a stop to the practice for some time to come at least. Forgeries have occurred on W. R. Thomas for a $9 check, and W. G. Shehee for a small amount.

It is said that DeBose would forge the checks and order booze on them in the name of Smith, afterwards applying to the express company with a written order for the package. He had successfully gotten one package delivered in this manner, but as Mr. Williams had learned of the fraud he shipped his second order and was on the lookout for the party who would call to claim the package, with the result that DeBose is now behind the bars.

DeBose implicated another negro by the name of C. C. Wilson, who was also arrested yesterday, and they will be required to explain to the judge how it all happened.

HOUSE TOTALLY DESTROYED BY FIRE

From Saturday's Daily Sun:

The two-story residence owned and occupied by Rev. J. R. Montgomery, colored, on Fifth street, in the northwestern section of the city, was totally destroyed by fire between 8 and 9 o'clock last night. The firemen responded promptly, but the house was doomed before the alarm was sent in.

A fish fry was in progress at Rev. Montgomery's, but it is not known how the conflagration started. All the fish were fried.

The building was insured for a small amount.

U. S. COURT ADJOURNS.

Completed Labors for This Term on Thursday Afternoon.

From Friday's Daily Sun:

The case of B. G. and Spencer Brooks occupied the greater part of the session of court Thursday and resulted in both parties being found guilty of the charge of counterfeiting. Their sentence was three years each in the Federal prison at Atlanta and an additional fine of $1,000 each.

A. P. Hardee plead guilty to the charge of technically defrauding the Government and was sentenced to pay a fine of $1,200.

Sam Tillman and James Dorian, the two negroes convicted of counterfeiting, were given three and two and a half years respectively.

The grand jury completed their labors early in the day and adjourned for the term, which was followed by the court finishing its business and adjourning until the next session.

Funeral of Little Elmo.

From Saturday's Daily Sun:

The funeral services over the remains of little Elmo, infant son of Mr. and Mrs. F. A. Roux, occurred at the cemetery yesterday afternoon, Rev. F. R. Bridges officiating. The remains were met at the train by a large number of friends and acquaintances of the family and escorted to their last resting-place.

JUDGE MASON HAS A BUSY DAY WEDNESDAY

THREE CASES BEFORE HIM CONSUMED ENTIRE DAY.

Will English, the Waldo Negro Boy, Bound Over on Charge of Manslaughter—Other Cases.

From Thursday's Daily Sun:

Wednesday's session of Judge Mason's court was the busiest in some time, as he was occupied nearly all of the day with three different cases.

Henry Mickens, the negro boy who stole a wheel from J. L. Chesser and skipped out to Ocala, was called up and plead guilty to the charge. The judge reserved his decision and may decide to send him to the State reformatory, owing to his age.

Will English, the Waldo negro who shot his playmate, was held for the grand jury on the charge of manslaughter. He furnished the required bond.

The case of Brockington and others, as trustees for the Bethlehem Methodist church, vs. Wm. McCray, was called for trial. The defendant confessed judgment. The State's interests were looked after by State Attorney Rivers and McCray was represented by Col. Sanchez.

THE USUAL MONTHLY BILLS WERE ORDERED PAID.

Mayor Davis Instructed to Enforce Ordinance Relating to Grading West Main Street by A. C. L.

The City Council met in adjourned session Wednesday night with President Pro Tem Cannon in the chair, Aldermen Broome, Burnett, Graves, Mixson and Vidal, and Clerk Dell present.

Upon motion of Alderman Burnett the minutes of the last meeting were ordered approved, after correcting them so as to give the minority and majority report of committees on ordinance No. 170.

Alderman Burnett moved that the superintendent of the water works be instructed to purchase the necessary pipe and connections for connecting with the deep water well of the Diamond Ice Company; which was carried.

The street committee was authorized to purchase a street grader upon thirty days' approval.

Alderman Burnett moved that the assessment of Nimrod Wells on a 5-acre lot be reduced from $250 to $50, and F. F. Hazzard from $200 to $100; which was carried.

The mayor was instructed to enforce the ordinance requiring the A. C. L. to grade West Main street.

Alderman Burnett moved that the city surveyor be instructed to establish the straight west line on Prairie avenue from Alachua avenue to Seminary street; which was carried.

The street committee was instructed to examine the bridge on East Mechanic street, across Sweetwater Branch, and report its condition.

Alderman Vidal moved that the chairman of the street committee and the surveyor be instructed to establish a line on block 9, Brush's addition to Gainesville.

Following bills were ordered paid from the several funds: Contingent fund—B. T. Arnow, $5.75; J. E. Burtz, $48.15; Gainesville Hardware Co., $27.65; C. A. Colclough, $8; J. M. Haile, $31.44; C. M. Dell, $50; Lois Tucker, $90.65; J. M. Haile, $50; A. W. Taylor, $50; J. B. Dell, Jr., $25.

A communication from the Board of Public Works was referred to the chairman of the street committee. It was in reference to the paving of East Main street, several of the property owners desiring to put down vitrified brick instead of rock gravel.

Upon motion of Alderman Mixson the matter of buying the street south of the Government building site was referred to the street committee with power to act, provided that same could be purchased for not over $400.

The matter of lights on Pearl street was referred to the light committee.

The assessment of Mrs. C. H. Davies was reduced to $500.

A lengthy communication from the Twentieth Century Club was referred to the ordinance committee.

Alderman Burnett moved an adjournment, which was carried.

NATURE'S WARNING

Gainesville People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously.

But nature always warns you.

Notice the kidney secretions.

If there are settlings and sediment,

Passages frequent, scanty, painful.

It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in this locality.

Mrs. J. L. Warren of Starke, Fla., says: "For some time I was a victim of kidney trouble. The kidney secretions were too frequent. in passage, causing me the greatest annoyance and I suffered constantly from backaches and dull pains through the kidneys. I could not rest well and in the morning arose feeling tired and worn out. My back became very lame and I often found it difficult to get around. I at length read about Doan's Kidney Pills and procured a box. Since using them, I have been free from backaches and the soreness and lameness has disappeared. The annoyance from the kidney secretions also ceased and I am able to sleep well. Doan's Kidney Pills benefited me wonderfully and I can recommend them as the best kidney remedy I ever used."

LARGELY ATTENDED MEETING.

Kirby Smith Chapter Holds Enthusiastic Session Thursday.

From Friday's Daily Sun:

The largest and most interesting meeting of Kirby Smith Chapter, U. D. C., in years was held Thursday at the home of Mrs. H. H. McCreary, on East Liberty street.

The newly elected officers were installed at this meeting, and besides the regular routine of work one new member was received into the chapter. There were also three new applications received for membership, which will be acted upon at the next meeting.

The report of the secretary showed that all dues had been paid for the past year, and the chapter has a nice balance in the bank.

Many Sleepless Nights, Owing to a Persistent Cough—Relief Found at Last.

"For several winters past my wife has been troubled with a most persistent and disagreeable cough, which invariably extended over a period of several weeks and caused her many sleepless nights," writes Will J. Hayner, editor of The Burley (Col.) Bulletin. "Various remedies were tried each year, with no beneficial results. In November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was, indeed, marvelous. After three doses the cough entirely disappeared and has not manifested itself since." This remedy is for sale by all druggists.

Funeral Here.

From Friday's Daily Sun:

Elmo, the two-year-old son of Mr. and Mrs. Frank A. Roux, formerly residents of this city but who now live at Floral City, Citrus county, died yesterday at that place. The body will be brought here today on the A. C. L. at 3 p. m. and the burial will be at the cemetery, immediately after the arrival of the train.

ANOTHER CHILD IS SERIOUSLY BURNED

LITTLE FELLOW'S CLOTHES IGNITED WHILE DRESSING.

Accident Occurred Thursday Morning at Home of Mrs. Lina Starke, on East Orange Street.

From Friday's Daily Sun.

Malcolm Farber, the little 7-year-old grandson of Mrs. Lina Starke, who was seriously burned about the body and right side early Thursday morning, is reported in a serious condition.

Mrs. Starke had gone to the kitchen to prepare the morning meal, leaving the boy by the fire dressing, when she heard his screams.

In some manner the door separating the rooms had become locked, and it was several minutes before she reached him to find that he was completely enveloped in flames, his clothing being afire all over.

As soon as the flames could be extinguished medical aid was summoned, and the little fellow is resting as easily as could be expected, the entire right side of him being burned to a solid blister from head to foot.

Just the condition he is in could not be learned, as he is suffering a great deal and they would not question him concerning the affair, and then, too, at his young age he would probably be unable to tell anything of the occurrence.

Save Money by Buying Chamberlain's Cough Remedy.

You will pay just as much for a bottle of Chamberlain's Cough Remedy as for any of the other cough medicines, but you save money in buying it. The saving is in what you get, not what you pay. The sure-to-cure-you quality is in every bottle of this remedy, and you get good results when you take it. Neglected colds often develop serious conditions, and when you buy a cough medicine you want to be sure you are getting one that will cure your cold. Chamberlain's Cough Remedy always cures. Price 25 and 50 cents a bottle. For sale by all druggists.

Locates at Bronson.

From Friday's Daily Sun.

Dr. B. M. Tison and family will leave today for Bronson, where they will make their future home. The Doctor, who has been out of college for the past two years, has decided on Bronson owing to the location being close to his home, and he will not go among the people there as a total stranger. During the intervening time he practiced medicine in the western part of Bradford county, but decided to make the move so that his field would be larger in which to follow his profession as physician.

C. R. Kluger, the jeweler, 1060 Virginia avenue, Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." Notice of Adoption of School Books.

Notice is hereby given that on the 6th day of April, 1909, the Board of Public Instruction of Alachua county will adopt a uniform system of school books to be used in the public schools of said county for the ensuing five years. All interested parties are notified to be present at said meeting.

By order of the Board this February 3rd, 1909. R. B. WEEKS,
Chm'n. B. P. I. Alachua County.
Attest: J. L. KELLEY, Sec'y.

Hexamethylenetetramine.

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by the medical text books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. J. W. McCollum & Co.

JUDGE SAYS CARMACK'S MAN HAD THE JURY LIST

In Reply to Intimations That They Had Been Tampered With--Juror Whitworth's Case.

NASHVILLE, Tenn., Feb. 5.—When an early adjournment was taken yesterday in the trial of Col. Duncan B. Cooper, Robin J. Cooper and John D. Sharpe, charged with the murder of E. W. Carmack, the jurors passed for the trial of the case had been reduced from 11 to 10 by the removal of Juror Whitworth and a new venire of 500 talesmen had been ordered summoned for appearance Monday and from these both the State and defense express the hope that the two jurors necessary to complete the trial will be secured.

When court opened Judge Hart said: "There have been intimations in the press that the jury list has been tampered with. I wish to say that the jury box from which the names are drawn is in the custody of Circuit Clerk Lewis Hitt. The names in it were placed there two years ago. It remains sealed and is controlled by Hitt, who was Carmack's campaign manager. I make this statement in justice to everyone concerned."

Was Against Patterson.

Judge Hart seemed to feel very deeply the insinuation that this was an effort made to get men on the panel friendly to the defendants. Very few if any in the room had heard of such a charge, which was sent to the judge in the form of a clipping from an out-of-town paper.

The court then drew the new venire and sent for Juror Whitworth. The latter was asked to explain his remark that he was against Gov. Patterson.

"I said I was aganist him because of his abuse of the pardoning power and in turning criminals loose."

Judge Anderson of the defense cross-examined the juror.

Whitworth declared he would much prefer to escape service, but denied any bias.

No Disgrace for Whitworth.

The court then briefly reviewed the charge. He held that the claim that the juror had said that the defendants should be hanged was controverted. On the second charge that he had said that Gov. Patterson had a hand in the killing, the judge held that the juror did not deny it specifically enough.

"Therefore," the court concluded, "I deem it best to excuse Mr. Whitworth from the jury."

The State objected strenuously and declared that the court's action would discredit and disgrace Whitworth. Judge Hart hastened to say that there was no ground for such a statement. The State continued to fight the decision and in lengthy speeches sought to change it without avail. Court then adjourned until Monday, when the efforts to secure two more jurors will be resumed.

TORNADOES SWEEP OVER MANY STATES

Hail, Darkness and Lightning Accompany Storm. Many Lives and Much Property Lost.

LOUISVILLE, Ky., Feb. 6.—Death for probably a score of persons, losses of hundreds of thousands of dollars in property and the crippling of many telegraph wires resulted between noon and dusk yesterday from a series of small tornadoes, which swept the south central States from the Tennessee line to the Texas pan handle. The storms were accompanied in most cases by hail, darkness, terrific lightning flashes and sheets of rain.

Most of the towns where loss of life occurred are off the railroads, so that news from them has been coming in slowly. Known casualties are:

Storm's Toll of Lives.

Stuttgar, Arkansas—Mrs. Garfield and a child of William Story. Mrs. Story is reported fatally injured.

Sulphur Springs, Tex.—Mrs. James Ardis and Mrs. C. Caldwell, from Rolling Fork, Miss. Just before the telephone wires broke word came that four had been killed.

Booth, Miss.—Reported to Birmingham that six had met death there.

In other towns such as Ennis and Waxahachie, Tex., and Boscoe, La., many dwellings are said to have been demolished by the wind.

Arkansas and Upper Louisiana rice fields were injured to the extent of many thousands of dollars, while the larger cities experienced rains and darkness and lightning bolts that made large buildings quiver.

At Chattanooga there was a terrific storm of hail.

Reports last night from Birmingham state that several persons were killed by a tornado at Cullman, Ala., this afternoon.

Violent Storms in Georgia.

COLUMBUS, Ga., Feb. 6.—A rain and electrical storm, which in its violent character was typical of midsummer, swept over west Georgia early last night.

The rainfall in this section heretofore this winter has been the lightest in many years. A report that Chipley, Ga., was again cyclone swept, is untrue, although high winds prevailed there.

Not Coughing Today?

Yet you may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says. He knows. S. P. C. A. FORMED SATURDAY AFTERNOON

MRS. E. C. F. SANCHEZ CHOSEN AS PRESIDENT OF MEETING.

By-Laws to Be Drafted by Special Committee Who Will Submit Report at Next Meeting.

A society for the prevention of cruelty to animals was formed in Gainesville Saturday afternoon by a large number of ladies and gentlemen who assembled pursuant to the call published in The Sun, the meeting being held in the offices of The Dutton Bank.

The assembly was called to order and Mrs. E. C. F. Sanchez chosen as president, while Miss Mabel Sanchez was selected as secretary.

Much discussion was indulged in and Mayor Davis read, for the benefit of those present,, the city's ordinance governing horses and other animals, stating that while he heartily approved of the move made by the ladies he deemed it best for him not to become a member while he was holding his present position as mayor.

Mrs. Sanchez appointed as a committee on name and by-laws Col. W. E. Baker, Mesdames W. L. Hill and W. P. Morrow, who will arrange the by-laws and submit them to another meeting of the association to be called by the president.

Major Thomas suggested that the committee correspond with Savannah, Jacksonville and other places and obtain a copy of their by-laws, which would doubtless prove a help to the committee.

Col. Baker read the State laws concerning animals and birds and suggested that it would prove advantageous for the association to solicit the sheriff and police to become members of the association, as they could pick up all offenders without first securing a warrant for their arrest.

Upon motion of Mrs. L. C. Lynch the meeting adjourned subject to the call of the president, which will be following the committee's report on the by-laws.

The association has been successfully launched here, which shows another step in the forward march, and the good work to be done by the ladies and men who composed the meeting is everywhere evident, and many cases can be cited to their attention.

For City Marshal.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal, for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,
BEN T. ARNOW.

I take this method of informing the public that I am a candidate for City Marshal at the election to be held on April 13, 1909. I respectfully solicit the support of all voters, irrespective of party affiliation, and promise to faithfully and impartially discharge the duties of the office should I be elected. Respectfully,
CHAS. C. WARREN.

I respectfully announce myself a candidate for the office of City Marshal, to be voted for at the election on April 13, 1909. If elected I will faithfully discharge the duties of the office without fear or favor. I respectfully solicit the votes of all, irrespective of party affiliation.
CHAS. M. DELL.

FLETCHER GASS TO PEN FOR LARCENY

STOLE BICYCLE TIRE FROM MASON RICHARDSON SATURDAY.

Was Given Sixty Days or $15 and Costs by Justice Carlisle—Will Dip Turpentine.

Fletcher Gass, a little negro who has repeatedly been in court troubles here, will now be given a chance to try the act of dipping gum for Rawls & Co. for the next sixty days, having been found guilty of the larceny of a bicycle tire from Mason Richardson.

Gass is quite a notorious little character about the streets and has not always been caught for the meanness he has been guilty of.

When Sheriff Ramsey went to arrest him on Saturday he had to chase him before finally capturing him, which was done in the rear of the south side block, where the negro had hid himself.

Before Justice Carlisle he was convicted upon the charge of larceny, having taken a bicycle tire belonging to Mason Richardson, and the evidence was so conclusive that the judge fined him $15 and costs or sixty days in the camps. As the money has not yet been raised he will be taken to the camps Monday.

A GOOD SHOWING.

Ogden Colored School Doing Good Work—People Prosperous.

Editor Sun: As The Sun is the principle organ in this county please allow space to say a few things concerning the colored people in the Ogden school district. Mrs. Mamie Bowers will close a successful session next Wednesday. She has enrolled about 85 with a high average. About 25 patrons are sending to this school, 18 of whom own and operate their own farms. These 18 families own 1,125 acres of land, 30 mules and horses, and about 60 head of cattle. Besides, there are six families who have not as yet sent their children to school, but who own 400 acres of land and eight head of mules and horses. It will be observed that nearly 75 per cent of the patrons are land owners, averaging about 100 acres to the family. The major part of these properties has been paid for. The writer has 20 years' experience and can say candidly that the people are trying to be loyal citizens. Crimes are rare. Two murders have been committed in 20 years, and in each case the deed was done by a transcient man. The people have trebbled their wealth in the last five years. It took nothing but a "panic" to stop them. By noticing our prosperity it will be seen that the school is not a financial burden to the county. Such is the condition of a people who have had two school sessions in seven years. We hope that our county board will hereafter put us in the first ranks of colored schools for trying to improve ourselves along all lines.

"Peaches and Plenty" is now the popular air in Georgia.

The recent cold weather was a blessing to the farmers who had hogs to kill.

The "signs of the times" point to Joe Humphries as President of the next State Senate.

People no longer have consumption. It is now known as tuberculosis. The effect is the same, however.

Bryan's assertion that free silver is still a live issue indicates that someone has been robbing the political graveyard.

Dr. Hutchinson says bald heads are conducive to health. That probably accounts for the longevity of United States Senators.

The work of constructing good roads is progressing in nearly every county in Florida. No better use could be made of the people's money.

An Arizona man has died at the ripe old age of 106. He must have been remarkably quick with his trigger finger to have reached that age in Arizona.

Did you ever notice that the price of cotton invariably advances just before planting time? This is an old trick of the factors to encourage the growers to increase their acreage.

Hon. Fred M. Hudson, candidate for President of the State Senate, represents the thirteenth district. It remains to be seen if the number thirteen will prove a hoodoo in his case.

The managers of the Florida Mid-Winter Chautauqua should make an effort to get Hon. William Jennings Bryan to give them a date. The receipts from such an engagement would go a long way towards defraying the expenses of the Chautauqua. Col. Bryan is by long odds the most popular lecturer in America.

That spelling reform does not meet with much favor in Canada is seen in the refusal of the Ontario school authorities to drop the letter "u" from such words as "honour," "favour," "labour," etc. Evidently the attempts of some of our radical spelling reformers would get scanty consideration north of the boundary line.

Hon. Syd L. Carter will be the next Speaker of the House, and is one of the best equipped men in the State for the position. We believe that the whiskey question will be the leading principle in the fight. And Col Carter is absolutely on the dry side; representing a dry county, he will get the support of that side, who are largely in the majority. He is not only an able man but he is absolutely honest. A man whose heart ever beats in sympathy with the poorer classes of our people, Florida never had an abler, better prosecuting attorney than Col. Carter. No one in the State will be prouder than we will to see him made Speaker. We would stake our life upon him in any position.—Bartow Record.

CURRENT COMMENT.

The Baltimore Sun says: "Wait for Connolly's story of 'How I Saved the Republic.' Bound uniform with the Roosevelt set of 279 books under the same title."

The Baltimore News says: "There are various ways in which a city can get caught for damages. In New York last week a jury gave a boy $4,000 because a rotten tree fell on him during a thunderstorm and broke his leg. The city tried to prove that the accident was due to an act of God, but the jury decided the responsibility could be placed nearer home, and fixed it on city employees who knew the tree was rotten and did not cut it down. That is a precedent that may be costly for other municipalities."

The Richmond News-Leader says: "The Republicans of Oregon, it is stated, have raised the question of the constitutionality of the Oregon primary law under the workings of which a Republican Legislature had to elect a Democrat to the United States Senate or flagrantly and shamelessly violate a solemn pledge. However, whether or not the law is unconstitutional it is not clear that the issue can in any manner affect the claim of the Democratic Senator to his seat. The provisions of the constitution were strictly adhered to by the Legislature in his election, and that settles it so far as he is concerned, it would seem. There appears no way for the Senate to find even an excuse to go behind the legislative return."

The Louisville Courier-Journal says: "Statehood is not a garment to be lightly bestowed. Its significance is profound. It extends to fundamentals of citizenship and of life. It gives votes to persons who have not had them before. It admits great communities to the prodigious American fellowship. It extends the Federal constitution over new ground. It gives new forces a voice in the government of all the people. And in applying for the great benefit it is to be hoped that New Mexico and Arizona come with minds conscious of the bigger and higher life they seek and of the responsibilities it brings. Evidently they are duly disciplined and instructed and are ready. That, at least, is the supposition of their friends, who in Kentucky are numbered in multitudes. A great proportion of us look cordially toward the two territories whose people have striven so long and hard and patiently for Statehood and wish them not only a quick voyage through the House, but a safe trip through the Senate and into the family."

"Mr. Taft possesses the confidence of the people of the United States in an unusual degree," says The Norfolk (Va.) Pilot. "They credit him with sound judgment, with courage and candor. If he shall return from his mission convinced that the canal has been wisely projected—that no disconcerting obstacles have developed to cause a change in the prosecution of the original plan, and that up to now the results are commensurate with the cost—we are confident that the popular uneasiness will be set at rest, and that his verdict will be accepted as conclusive of all contrary assertions. We further believe that, should he find a mistake has been committed, he will not hesitate to recommend an abandonment of the present scheme and the adoption of the sea-level route which was favored by a majority of the engineers first called into consultation by President Roosevelt."

"In Nebraska Democrats control the Legislature and State government for the first time in a good many years," says The Charlotte (N. C.) Observer, "but there is no Senatorial vacancy and Republicans are more than likely to recapture the Legislature before one occurs. So Democratic managers now propose to submit the Senatorship question to the people while they are Democratically inclined and while the appeals made last fall for Mr. Bryan as the State's most distinguished citizen, a focal point of State pride, are still emotionally vibrant. With this end in view a bill has been introduced into the Legislature. Whatever its fate, we hope that our ancient friend the Peerless will after many tribulations finally land a job somehow."

The negro is permitted to attend the same school with white children in California, but the little Jap is to be excluded. For our part we would prefer the Jap a thousand to one.

SURPRISING INFORMATION.

(Tampa Tribune.)

That The Tribune has not been without reason in making diligent inquiries concerning the proceedings of the Internal Improvement Board under the former administration is disclosed in somewhat startling style in a special dispatch from Tallahassee to The Pensacola Journal in which the surprising statement is made that the compensation of W. S. Jennings, who has been General Counsel for the board during the Broward regime, was $15,000 in 1907 and $17,600 plus expenses in 1908.

That few people in this State have had the slightest idea that any such sum was being paid any official of the State government goes without saying. Much criticism was indulged in throughout the State when it was stated that Jennings was receiving a salary of $5,000 a year as General Counsel for the Internal Improvement Board and this fact was discussed generally on the stump in the recent and in previous political campaigns, furnishing ready-made material for the opponents of the Broward administration and causing a veritable storm of protest whenever it was announced—but that this $5,000 grew to $15,000 in 1907 and to $17,600, plus expenses, in 1908, almost passes belief and cannot help but produce in the minds of the taxpayers the impression that "the half has not been told" about the doings of the past four years at Tallahassee.

The special which conveys this intelligence to readers of The Pensacola Journal also states that, on motion of Attorney-General Park M. Trammell, the office held by Mr. Jennings has been abolished and the duties of the office assumed by the Attorney-General without additional compensation. It is furthermore stated that Messrs. Croom and McLin disapproved the action of the board in displacing Mr. Jennings, but that Governor Gilchrist insisted that the records show that Mr. Jennings' service terminated December 31, 1908, and it was so ordered.

That this attorney received compensation more than three times greater than any other official of this State, and his expenses in addition, compensation which would be considered excessive if paid to the very ablest lawyer in Florida for similar services, is a revelation which will doubtless add to the State-wide disfavor in which the former administration is held; and it will be certainly an occasion for the people of Florida to thank their lucky stars that the ballots of the Democracy brought about a timely change.

The Tribune well remembers how Frank Clark, in a speech on the drainage proposition, fairly reveled in his finest satire in discussing how the State was "buncoed" when it paid W. S. Jennings $5,000 a year; but what would not Frank Clark have said about a $17,600 plus expenses salary? He would have been stricken speechless for once in his life.

The Tribune congratulates the State that the board, as now constituted, has put an end to this sort of business, and especially that it is bringing out these facts for public information.

OUR WEALTH IN FARM ANIMALS.

For those who, either in exultation or sorrow, have insisted that the automobile was destined to put the horse out of business, there is some information of real interest in a bulletin just issued by the Bureau of Statistics of the Department of Agriculture. The figures presented in that document show not only that the horse has not been abolished, but that he is an item of steadily increasing importance in the economy of animal industry.

It appears, for instance, that the horse population of the United States on Jan. 1, 1909, numbered 20,640,000, valued at $1,974,052,000. These figures represent an increase of 648,000 in the number and $106,522,000 in the value of American horses since Jan. 1, 1908. It will be observed that, instead of being exterminated by self-propelled vehicles, the horse is still in active business and on an increasing scale. A curious fact, derived from other sources, is that in New York, Chicago and other cities where automobiles are used most extensively, the horse population is constantly growing.

The bulletin above mentioned contains much information as to our national wealth in farm animals in general. For example, there were in the United States on Jan. 1, 1909, 1,053,000 mules valued at $437,082,000, an increase of 184,000 in number and $20,143,000 in aggregate value during the year. There were 21,720,000 milch cows, valued at $702,945,000, an increase of 526,000 in number and $52,883,000 in total value. The swine numbered 54,147,000, these figures representing a decrease of 1,937,000 in number. The sheep numbered 56,084,000, valued at $192,632,000, an increase of 1,453,000 in number, but the total value of the herds decreased $19,104,000.

The value of the country's farm animals of all classes on Jan. 1 of this year amounted to a total of $4,525,250,000, an increase of $194,029,000 since Jan. 1, 1908. In other words, these four-footed assets of the American people are worth enough money to pay the interest-bearing debt of the United States Government more than four times over. It is facts like these that provoke the American farmer to laugh contemptuously at the cheap demagogues who whine about his "poverty."

STATE PRESS COMMENT.

Calhoun is the only county in the State that voted a Republican majority in the last national election. Bryan electors received 241 votes and Taft electors 339 votes.—Jasper News.

The people have been on the wrong scent. It is not the railroads, corporations and trusts that oppress the people, but the Government itself. No man could oppress his fellows in anywise except by Government consent and connivance. The Government is responsible for the wrongs it permits and for the greater wrongs it commits itself in the name of the very people who are being wronged.—Bronson Times-Democrat.

It is hoped that Governor Gilchrist will see some way to recommend in his message to the Legislature a measure that will reduce the heavy State taxation. The State tax is simply outrageously high. That pension law enacted at the last Legislature should be repealed. We believe that every needy Confederate soldier should be taken care of by the State, but under the present law a poor widow is taxed to furnish a pension to a person who could buy her out ten times. We say that this is unjust, and the law should be amended so as to tax the people for a pension fund for only the needy.—DeLand Record.

Two Popular Young People United in Marriage at Waldo.

Tuesday, Feb. 2, 1909, the goddess of happiness spread her mantle of bliss over the M. E. church and held her jeweled wand over as joyous a throng of men and women as ever gathered in Waldo.

The spacious church was beautifully decorated with moss, arbor-vitae and other evergreens, rare flowers, diffusing delicate fragrance and many plants of tropical variety helped to make the scene one long to be remembered, a joy forever.

At 3:30 the seductive strains of the piano broke forth into the most exquisite music, beneath the bewitching touch of Miss Alma Fennell of Gainesville. Instantly Miss Futch of Gainesville, the charming bridesmaid, entered, marching up the isle, followed by little Francis Irwin of Fairbanks and Lucile Boring as flower girls, and in the rear came Mr. Jolly with the arm of his lovely daughter linked in his. Miss Jolly was met at the altar by the groom, Mr. Harvard, and Mr. Vance Winter as best man. Rev. T. L. Z. Barr, pastor of the M. E. church, South, awaited them, and in the most impressive manner performed the beautiful marriage ceremony and declared this noble man and charming woman to be husband and wife. The happy couple left on the afternoon train for Jacksonville and places on the East Coast.

The wedding presents consisted of many valuable and beautiful articles, fine silverware, elegant china and many pieces of cut glass.

Mr. Harvard is one of our most popular and prosperous young men. He is universally admired and esteemed by all for his great moral worth and exemplary life. His bride is one of the loveliest and most charming young ladies, with a large circle of admiring friends, who love her for her amiability, her goodness and those noble traits of character which always win for the fortunate possessor the love and esteem of all.

GAINESVILLE NOW REAPING HARVEST

LETTUCE SOLD FRIDAY FOR $3 AND $3.50 PER BASKET.

Price Will Probably Reach High Mark of $6 and $7 Next Week—The Cabbage Crop.

From Saturday's Daily Sun:

Gainesville canvas lettuce growers are now reaping a harvest on the crop and the next few weeks of the market is expected to be good for the large number of growers that plant regularly under canvas and who always make a hit during February and March.

Practically all of the lettuce has been shipped from the southern part of the State, hence the situation is nearly controlled just at the present time by the farmers who have the protection of canvas and they welcome the rise in price with a very glad smile.

Lettuce sold in the New York market Friday for $3 to $3.50 per basket, and the price will doubtless go up to $6 and $7 within the next few days, as the fancy frame article is very scarce and this immediate section is about the only place to supply the great demand.

Two cars left here Friday night, and from now until the season closes about one car will be shipped every day until the growers commence the cutting of the spring crop, which is just now being put out by the farmers.

There is still no change in the report of the cabbage crop as to the amount of damage done to the vegetable. An experienced planter says the past few days has shown the crop to be a good deal more damaged than was at first suspected, and unless a rain falls soon he expects fully 50 per cent of the crop will be lost, but with a favorable rain it would average about 30 per cent loss.

ICE FACTORY TO BE BUILT NEAR DEPOT

ON THE OLD SITE OF GAINESVILLE ICE COMPANY.

Interested Parties Are Keeping Plans Quiet, But Work Will Soon Commence on the Building.

Plans for the erection of another ice plant for Gainesville have been completed, and it is understood that work will commence on the building within a very short time.

Nothing definite could be learned from the promoters of the proposed plant, but it is generally understood that the plant will be a large one and will have a capacity of twenty tons of ice per day, which will give Gainesville three factories, with a total capacity of seventy tons of ice daily.

The location of the new plant will be near the intersection of the two railroads, at the foot of West Main street, where the factory of the old Gainesville Ice Company was formerly located.

Very few of the gentlemen composing the new company are known, but it is known that sufficient capital is interested in the project to extend the company larger if necessary, and they will not depend upon the field here, but will reach out in all sections of the State for business.

The new plant will be in operation for some of the business the coming summer.

DAUGHTERS PROTEST.

Object to the Award of Prize for Essay on Lee.

BATON ROUGE, La., Feb. 5.—A vigorous protest has gone up from the Louisiana division of the United Daughters of the Confederacy against the award for $100, a prize offered by the organization of the Daughters for the best essay dealing with the life of Robert E. Lee, to Miss Christine Boyson, a student at Columbia University.

The subject of the winning essay was Robert E. Lee—A Present Day Estimate. The Louisiana Daughters claim that it abounds in misrepresentations and reflections on the South. Miss Boyson is from Minnesota.

The judges of the contest were Dr. E. A. Alderman, president of the University of Virginia; Dr. Alphonso Smith, formerly of the Louisiana State University, and Dr. Finley of New York University.

A committee was named to investigate and bring the matter before the officers of the national organization.

Suffering Ladies

are urged to follow the example of thousands of their sisters and take Cardui. Cardui is a non-mineral, non-intoxicating medicine for women. It is for sick, weak ladies, with sick female organs.

TAKE CARDUI

It Will Help You

It is a genuine, curative medicine, that builds up the female system and relieves female pain.

Mrs. M. A. St. Clair, of Eskdale, W. Va., writes: "Before taking Cardui, I had given up all hope of getting well. I had suffered for 3 years with my left side and was confined to my bed, so I took Cardui, and now Cardui has about cured my female trouble."

AT ALL DRUG STORES

SOME UNFAVORABLE SOIL CONDITIONS

By A. W. BLAIR
—Florida Agricultural Experiment Station—

It quite frequently happens that crop failures are due to unfavorable soil conditions rather than to a deficiency of plant food in the soil, and the ability to at once recognize such conditions and correct them will save the farmer many dollars.

Among such unfavorable conditions the following may be mentioned: (1) Hardpan; (2) the presence of iron salts; (3) excess of water; (4) lack of water; (5) the presence of acids in the soil.

HARDPAN.

By hardpan is meant a more or less hardened layer at some depth in the subsoil. It may be comparatively near the surface, or it may be several feet down. Hardpan obstructs the free growth of the roots downward in their search for food and water, and it may also prevent the free movement of the water downward, thus causing the soil to become water-logged during a rainy period; or it may prevent the free movement of the capillary water upward to the plant roots during a dry season. Hardpan may be calcareous, siliceous, or ferruginous (iron-bearing). The cementing materials go into solution near the surface and filter through into the subsoil, until at some particular level, where the subsoil may be naturally close-grained, the materials are deposited year after year in a layer which gradually becomes thicker and harder. If the plants or trees begin to show signs of trouble, an examination of the subsoil should be made—not stopping at one or two feet—and if hardpan is found it must be broken up, either by deep plowing, by digging, or as a last resort by the use of dynamite. The admission of air to this hard layer and the re-establishment of water circulation will tend to soften the hardpan.

Sometimes an artificial hardpan, or "plowsole," is formed when land is always plowed to the same depth. This could be avoided by occasionally plowing deeper.

IRON SALTS.

Iron is often found in quantity in the soil as an oxide, or hydrate, and in these forms it does but little if any harm. Their presence may be recognized by the yellowish to reddish hues which they give to the soil. On the other hand iron pyrites and salts of iron such as ferrous sulphate and ferrous carbonate are poisonous to plants. Some of these poisonous iron salts give to the soil a bluish or greenish color which is characteristic. This condition may be remedied to a certain degree by thoroughly stirring the soil, so that the air may circulate through it more freely. This tends to oxidize the poisonous compounds and make them harmless. Where iron salts are present in considerable quantity, it is possible for them to combine with the phosphoric acid of the soil and hold it in a form that is not readily available to plants. The free use of lime or finely ground limestone, together with thorough aeration will usually prove effective where poisonous iron compounds are present.

EXCESS OF WATER.

It is well known that plants do poorly in a water-logged soil. Under such conditions the air cannot circulate freely, the beneficial bacteria do not develop, and acid tends to accumulate. The remedy is to drain the land, thus getting rid of the surplus water, and then to plow deeply in order that the air may circulate freely and oxidize any poisonous substances that may have been formed.

LACK OF WATER.

A lack of water can often be remedied, at least partly, by more frequent and thorough cultivation, thus preventing excessive evaporation from the surface. The incorporation of humus or humus-forming materials with the soil will enable it to hold more of the water that falls upon it. This may be done by growing cover crops such as beggarweed, velvet beans, or cowpeas, and by leaving in the soil—not burning—the remains of plants.

ORGANIC ACIDS.

Organic acids are formed by the gradual decay of organic matter in the soil. If there is a deficiency of lime these acids will accumulate and thus cause trouble. When such acids are present in considerable quantities they interfere with the development of the nitrifying bacteria, and thus lessen the supply of available nitrates for crop production. The acid condition may be remedied by a liberal application of lime or finely ground limestone. For further treatment of acid soils see Bullein 93, which will be sent on request.

NATION WILL BE DRY IN QUARTER CENTURY

Is Prediction of Rev. E. E. Folk in Speech at Birmingham, Ala.

BIRMINGHAM, Ala., Feb. 2.—The Anti-Saloon League convention opened here Monday night with superintendents of State leagues and prominent workers present from all parts of the South. An address of welcome was delivered by Gov. B. B. Comer, who expressed his entire sympathy with the movement. Rev. E. E. Folk, of the Tennessee league, responded for the visitors and alluded in fervent manner to the recent fight in his state.

"It is with deep feeling that I respond to you, Governor Comer," he said, "you who are so well-known to be in sympathy with the cause. In Tennessee we got prohibition in spite of our Governor and I thank God that Alabama was not placed in so trying a position.

"I hasten to give credit to the man who did more than any other for the cause in the South—the lamented, the noble, the true, the brave E. W. Carmack. They killed him to get rid of him, but they forgot that out of martyrs is the seed of the church. The Tennessee Legislature carried out that for which he lived and died.

Dry Country in 25 Years.

"The whole South will be prohibition territory within five years and the entire Union in twenty-five years. It will not be many years until we will as soon think of returning to slavery as to the open saloon."

Former Governor R. M. Cunningham of Alabama said prohibition is the greatest issue in the nation today—greater than tariffs, trusts, railroad regulation or any of the other questions confronting the people for solution.

Dry Signs for West Virginia.

CHARLESTON, W. Va., Feb. 2.—The prohibition amendment to the State constitution, prohibiting the manufacture and sale of intoxicants within the State, passed the House of Delegates yesterday by a vote of 62 to 13. Eleven members were absent.

The measure will go at once to the Senate, where its fate is in doubt. Eleven Senators can kill the amendment and nine are openly opposed to it, while two are said to be in doubt. If passed by the Senate the amendment will not become effective until ratified by popular vote

There is little doubt, however, of its adoption, if submitted to popular vote, as already two-thirds of the counties are without saloons.

TRUST CAN'T COLLECT DEBTS THROUGH LAW

Is Decision of United States Supreme Court in Case of Wall Paper Co.

WASHINGTON, D. C., Feb. 2.—The case of the Continental Wallpaper Company, against Louis Voight and Son of Cincinnati, was yesterday decided by the Supreme Court of the United States in Voight's favor. The case was brought by the company on a debt of $57,000, the payment of which was resisted on the ground that the paper company is a trust. In effect the decision holds that an admitted trust organized contrary to the Sherman anti-trust law cannot use the court to collect debts.

It was represented that Voight had bought over $200,000 worth of paper, on which he had paid 50 per cent more than he would have had to pay if there had been competition. It was also set out that the Continental Company had been organized to conduct the business of the various wall paper factories of the United States and that Voight as a jobber in its products had been compelled to sign a strict agreement on the threat that if he did not do so, no paper would be sold to him and that it would be made impossible for him to continue in business.

In a demurrer the company admitted that it was a trust and still contended that it could properly collect debts due it. On this showing the company's petition was dismissed by the trial court and its decision was affirmed by the United States Circuit Court of Appeals for the sixth circuit. Yesterday's opinion was by Justice Harlan, and sustained the decision of the lower courts. Justices Brewer, White, Peckham and Holmes dissented.

Justice Harlan's opinion was of considerable length and dealt in detail with the various phases of the case. It was based on the third defense of Voight, that the company is part of a trust. He started out with the proposition that the Continental company is within the prohibitions of the Sherman act which he said is clear from the facts set forth in its defense. He then went on to show that this corporation is the representative of a combination which would have the effect not only of restraining, but of monopolizing the sale and manufacture of paper.

Lair Gets 20 Years For Enslaving White Girl

CHICAGO, Feb. 2.—A pitiful story of a beautiful girl snatched from the streets of Paris and lured to the United States yesterday resulted in the conviction of Henry Lair, charged by the Government with promoting the "white slave" traffic in this country. Lair was sentenced by Judge Landis to serve twenty years in the Government prison at Leavenworth, Kan., and to pay a $2,500 fine.

The next case to be tried is that of Lucie D'Arvaille, Lair's supposed wife, who was indicted with him on charges of importing French girls to this country in violation of the immigration laws.

Marie Peuroy, 19 years old, was the chief witness for the Government. When 14 years old, she said, she met in the streets of Paris, Jules Dufour, who later introduced her to Louis Paynt, now in the Government prison at Atlanta. Paynt induced her to come to America and brought her to Chicago, where she fell into the hands of Lair, who came from San Francisco. Mlle. Pueroy informed immigration officers of her plight and she was finally rescued.

Jules Dufour, who met the girl in Paris, is a brother of Alphonse Dufour, who with a woman known as Eva Dufour, forfeited $25,000 cash bail, following indictment for white slaving in Chicago and fled to France, where they were recently convicted in a French court.

S.S.S. THE ONLY REMEDY FOR BLOOD POISON

S. S. S. is the one and only reliable and certain cure for Contagious Blood Poison. This claim is not based on the treatment of a few cases of the disease, here and there, but its success extends over a period of more than forty years, during which time thousands upon thousands have found a cure by the use of this great vegetable remedy. S. S. S. is first of all, an absolutely perfect blood purifier, able to go down into the blood and remove every particle of the virus of Contagious Blood Poison. It cleanses and purifies the circulation, and in this way removes the cause of the trouble. Then nature, assisted by a rich, healthy blood supply, quickly renovates and renews the system, while the symptoms of ulcerated mouth and throat, skin eruptions, discolored splotches, falling hair, sores and ulcers, etc., disappear, leaving the body entirely free from the effects of this insidious poison. When S. S. S. has thoroughly cleansed and purified the circulation there is no danger of any future outbreak—the blood is pure and the cause of the disease entirely removed. Home Treatment Book containing many valuable and helpful suggestions for those who are curing themselves with S. S. S., and any medical advice desired sent free to all who write.

GOV. PATTERSON AGAIN USES HIS VETO POWER

"Why Not Destroy Grain and Grapes, As Well as Distilleries?" He Asks.

NASHVILLE, Tenn., Feb. 4.—Gov. M. R. Patterson yesterday sent the State Senate a message vetoing the bill prohibiting the manufacture of intoxicants in Tennessee after January 1, 1910. The message in part follows:

"If this Legislature shall destroy all the distilleries and breweries, why cannot the next forbid the raising or selling of the grains or cultivation of the grape out of which spirituous, malt or vinous liquors are made?

"Shall this or some future Legislature prevent the farmer from raising or selling tobacco or the manufacturer from placing it on the market?

"If we are thus started where shall we end? It is better not to make the start.

"In the exercise of my constitutional powers as Governor, I veto this measure and ask its reconsideration:

"First, because it ruthlessly deprives the State of revenue without any sort of corresponding benefit.

"Second, it discriminates against our own people in favor of the people of other States.

"Third, it destroys the property of the citizen without compensation.

"Fourth, it makes a dangerous precedent, humiliates Tennessee and lowers the place of dignity she has occupied as one of the proudest and most conservative States of the Union.

"Fifth, it violates the will of the people twice expressed at the ballot box, offends against their sense of justice and under the plea of civic righteousness sacrifices a great moral principle of Government at the very altar where it should be guarded and defended."

The prohibition bill was passed by the Senate over the Governor's veto yesterday afternoon by a vote of 20 to 12. The message will reach the House today.
